SUMMARY

Frontend Developer with experience in building responsive and user-friendly web applications. Skilled in translating UI/UX designs into functional interfaces, optimizing performance, and collaborating in Agile teams. Motivated to learn, grow, and contribute to modern web development projects.

EDUCATION

- **Bachelor's Degree in Information System and Software Engineering** Jan 2022 - May 2025
The University of Algeria Batna 2

CORE SKILL

- Frontend Skills: HTML5, CSS3, Tailwind, Sass/Scss, Styled Components, JavaScript, Typescript, React.js, Next.js, APIs integration, Git/GitHub, UI/UX Design, Vite/npm.
- Soft Skills: Communication Skills, Problem-Solving, Teamwork, Time Management, Adaptability.

WORK EXPERIENCE

Frontend Developer

May 2025 – Oct 2025

YASSIR, Alger, Algeria

- Developed scalable web apps with React.js, Next.js, and Typescript, improving performance and reducing load time by 15%.
- Delivered 10+ new features in 6 months, including scheduled rides, real-time tracking, and loyalty rewards, boosting user engagement.
- Worked in a distributed Agile team, contributing to sprint planning and daily standups to ensure consistent delivery.
- Managed tasks through Jira and collaborated with cross-functional teams via Slack and code reviews for smooth releases.

- Resolved performance bottlenecks by implementing React Query caching, cutting API calls and enhancing responsiveness.

Software Engineering Intern

Des 2024 - Jan 2025

SONATRACH TRC, Tebessa, Algeria

- Supported frontend development tasks, improving UI consistency with HTML, CSS, and JavaScript.
- Learned and applied SAP ERP concepts for enterprise resource planning and workflow optimization.
- Gained experience in database design and SQL, assisting with data management and reporting.
- Collaborated with software engineers to document processes and support system integration.

Frontend & Network Intern

Nov 2023 - Jan 2024

Algeria Telecom, Bir El Ater, Tebessa, Algeria

- Assisted in developing and testing frontend interfaces using HTML, CSS, and JavaScript to improve usability.
- Gained hands-on experience with network configuration and troubleshooting, ensuring stable connectivity.
- Collaborated with engineers to integrate web applications with network systems, enhancing internal tools.

Tech Club Member

Sep 2023 - Jun 2025

GDG Batna, Batna, Algeria

- Developed & Maintained the official website for DeVest 2024 (a tech event) using (HTML/CSS, JavaScript, React)
- Orchestrated five tech competitions, Hackathons, and workshops, attracting 300+ participants, resulting in 20+ innovative project submissions and increased community engagement within the local tech ecosystem.
- Managed event logistics, participant registrations, and live technical support during events
- Promoted events through social media, email campaigns, or partnerships with tech communities
- Resolved challenges under pressure during live competitions and web deployments

PROJECTS

1-NFTS App (React.js, Styled Components)

Demo: <https://adlene1.github.io/NFT-app/>

2-BOLDO Website (Next.js, React.js, Inline CSS)

Demo: <https://boldo-xi.vercel.app/>

LANGUAGES

Arabic (Mother Tongue), **English** (Fluent), **French** (Conversational)
